To: All Vendors Bidding on The College of New Jersey
    Kendall Hall Steam Piping Replacement Project

From: Roselle Horodeski
    Finance and Business Services

Date: May 8, 2015

ADDENDUM NO. 1

REFERENCE: The College of New Jersey
            Kendall Hall Steam Piping Replacement
            Bid No. AB150032

            Date of Original Bidding Documents: April 19, 2015

INTENT: This Addendum forms a part of the Contract Documents and modifies the original
        Bidding Documents and Prior Addenda if any, as identified above.

CONTRACTOR RFI'S FROM PRE-BID/SITE VISIT:

Question 1: Is Schedule 40 acceptable for the temporary steam piping?
Response: Yes

Question 2: Should the temporary piping be removed after the new piping installation is complete and operational?
Response: Yes

Question 3: Is a vinyl jacket acceptable in place of the aluminum on the temporary piping?
Response: Yes

Question 4: Can the temporary piping be installed above grade?
Response: No

Question 5: Will The College permit an allowance to be included for removal and replacement of the existing trees along the piping pathway in case the construction work doesn’t disturb them?
Response: No. Remove the trees as indicated on drawings.
Question 6: Please confirm that the project schedule listed in the bid advertisement is correct. Piping lead times are typically 6-8 weeks which would leave insufficient time for construction given the time required for mobilization, shop drawings, etc.  
*Response: Substantial Completion will be October 30, 2015.*

**CONTRACTOR QUESTIONS:**

**Question 1:** The Bidder's Checklist #33-J is calling to submit a Plumbing and/or HVAC License. BR Welding has completed multiple High Pressure Steam projects with all the welding Certificates, and without a plumbing license (since this work does not fall under Plumbing, and falls more under ASME Boiler and Pressure Vessel Code: Section IX). Would we qualify to bid if we provide reference for completed projects with similar scope and do not provide a plumbing License?  
*Response: The contractor or subcontractor, as applicable, only needs to be a certified welder.*

**PRE-BID SIGN-IN SHEET:**  
Sign-In Sheet from April 28, 2015 pre-bid attached.

**END OF ADDENDUM NO. 1**
